

The **Department of Kinesiology and Nutrition** at the University of Illinois Chicago invites applications for two (2) non-tenure-track **Open-Rank Clinical Assistant/Associate/Full Professor faculty positions** in Exercise Physiology starting Fall semester 2023. The individuals' primary responsibilities will be teaching undergraduate and graduate-level exercise physiology-related courses and mentoring students. One individual will also be responsible for directing the department's new Master's degree concentration, Clinical Exercise Physiology. The individuals will engage in scholarly activity and service to the profession and/or campus.

These positions require a doctoral degree to be conferred prior to hire date in kinesiology, exercise science, physiology, or a related field. The successful candidate will have varied teaching experiences that may include working with large-enrollment undergraduate courses, upper-level undergraduate courses, graduate courses, and courses with laboratories or applied experiences. The successful candidate will demonstrate expertise in current pedagogical practices with a commitment and passion towards teaching, learning, and student mentorship. The ideal candidate will also demonstrate collaborative and/or independent research in the field associated with their terminal degree. Preference will be given to those applicants with clinical exercise physiology expertise. American College of Sports Medicine Clinical Exercise Physiologist (ACSM-CEP) certification is a preferred qualification for the Clinical Exercise Physiology position.

The University of Illinois at Chicago is Chicago's only public research university with over 34,000 students, across 15 colleges, which also includes a hospital/health sciences system. UIC is one of the most ethnically and culturally rich campuses in the United States. The Department of Kinesiology & Nutrition has strengths not only in exercise physiology but also within nutrition, behavioral interventions, and biomechanics, all of which allow our students excellent education and training opportunities. Relevant to exercise physiology, the College of Applied Health Sciences is home to the Integrative Physiology Laboratory (<http://ipl.ahslabs.uic.edu/>), which is made up of a collaborative group of faculty in the Departments of Kinesiology & Nutrition and Physical Therapy.

Applications are requested by December 30, 2022. For fullest consideration, submit a cover letter (in your cover letter please specify which position you are applying for), curriculum vitae, short teaching statement, and the names of three potential references via the UIC job board.
